

Cookie Statement

Cookies

On this website the Data Privacy Stichting (DPS) uses session cookies and session storage.

Session cookies

The use of session cookies allow the website to function properly. A session cookie is a randomized number that is immediately deleted after you have closed your browser.

JavaScript

We also use session cookies to enable any JavaScript software to operate on your laptop or computer.

JavaScript is used to enable the unfolding menu features on our website. If your device does not support JavaScript, the website cannot be loaded correctly.

Session storage

Session storage is another form of temporary storage like the session cookies we use. We only use session storage to load the necessary information about the structure of our website on to your device.

Session storage enables easy website navigation. No personal data of yours is used.

Content of third party users

This website does not use content like widgets, plug-ins or other embedded content originating from third party websites.
